

The X Block is another important area for practical learning. The Lotus Lab is located on the 2nd floor of X Block. The IoT practical sessions are also conducted on the same floor, near the Lotus Lab, making it easy for students to locate both areas.

The Staff Room is located on the ground floor of X Block. Students can visit the staff room to meet faculty members or discuss academic-related matters. The Library is also situated near the Staff Room, making this part of the building an important academic area for students.

Vidyalankar School of Information Technology (VSIT) has a well-organized campus with different blocks, classrooms, laboratories, and common facilities. The college has two entrances, which makes it convenient for students to enter the campus from different sides.
