

VSIT Library

The VSIT Library is an important academic facility that provides students with a wide range of books, reference materials, and digital resources to support their studies. The library contains textbooks, reference books, competitive-examination materials, journals, magazines, newspapers, and other academic resources related to different courses and subjects offered by the college.

Students can use the library to prepare for examinations, complete assignments, conduct research, prepare projects, and improve their subject knowledge. The library also provides a quiet and comfortable environment where students can study and make effective use of their free time.

Library Timings

The VSIT Library is open from **9:00 AM to 5:00 PM** on working days. Students are expected to follow the library timings and plan their reading, borrowing, and other library activities accordingly.

Books and Reference Materials

The library has a diverse collection of books covering various academic subjects and areas of study. Some of the resources available include:

- Course textbooks and study books
- Reference books for different subjects
- Computer science and information technology books
- Programming and software-development books
- Database management and networking books
- Web development and application-development books
- Mathematics and statistics books
- Management, business, and commerce-related books
- Communication skills and English-language books
- General knowledge and competitive-examination books
- Career guidance and professional-development books
- Project and research reference materials
- Academic journals, magazines, and newspapers

The availability of multiple books on different subjects allows students to refer to more than one source while preparing assignments, projects, presentations, and examinations.

Computers and Internet Facilities

Along with physical books, the library provides computers that students can use for academic purposes. Students may use these computers for online research, accessing study materials, preparing assignments and projects, reading digital documents, and accessing educational websites and resources.

The computers are intended primarily for academic and educational activities, and students are expected to use them responsibly.

E-Library Facility

VSIT also provides an e-library facility that gives students access to digital academic resources and online study materials. Through the e-library, students can conveniently search for and access useful educational content, reference materials, e-books, journals, research resources, and other online learning materials.

The e-library is particularly useful when students need information that may not be available in physical books. It also allows students to access academic resources digitally, making learning more convenient and flexible.

Library Rules and Regulations

Students are expected to maintain discipline and follow the rules of the library. The important rules include:

1. Students must carry their valid college ID card while using the library.
2. Silence must be maintained inside the library to provide a peaceful study environment.
3. Students should keep their mobile phones on silent mode and avoid unnecessary phone conversations.
4. Books and other library materials must be handled carefully.
5. Students must return borrowed books within the specified due date.
6. Books should not be written on, highlighted, folded, torn, or otherwise damaged.
7. Students should not remove library books or materials from the premises without proper permission or issue records.
8. Food and beverages should not be consumed inside the library unless specifically permitted.
9. Students using library computers must use them primarily for academic and educational purposes.
10. Students should not change computer settings, install unauthorized software, or access inappropriate websites.
11. Library furniture, computers, books, and other equipment must be used responsibly.
12. Students should maintain cleanliness and keep the study area tidy.
13. Reference books, journals, and other restricted materials should be used according to library guidelines.
14. Students must cooperate with library staff and follow instructions regarding borrowing, returning, and using library resources.

15. Any loss or damage to library property may require the student to follow the college's applicable replacement or penalty procedure.

Importance of the Library

The VSIT Library supports students in both their academic and personal development. By providing physical books, reference materials, computers, internet access, and e-library resources in one place, it enables students to study, research, and learn beyond the classroom. Students are encouraged to make regular use of these facilities and follow the library rules so that the resources remain accessible and useful to everyone.
